Philips **LED lighting**

Leading the market today,
transforming the future.

Philips has been designing, developing and manufacturing LED lighting products resulting in a far reaching intellectual property portfolio and more than 20,000 time-tested installations. We have strengthened our leadership position and revenue generation in the LED Lighting market with solutions across segments, office, retail, industry and public. We are leaders in technology and product performance in the LED lighting industry and are a confident choice of lighting specifiers across the globe.
